Subject: Application for a postdoctoral position
Date: 2013-02-13 18:13
From: Michael Greife <michael.greife@uam.es>
To: gbranco@ist.utl.pt

Dear Professor Branco,

I am writing in response to your advertisement at the INSPIRE High-Energy Physics Employment Database for a postdoctoral position at the Centro de Física Teórica de Partículas of the Instituto Superior Técnico in Lisbon. I am currently a postdoctoral researcher at the Instituto de Física Teórica UAM/CSIC in Madrid, Spain, and I am looking for a position starting in October 2013. My current research is in the area of particle dark matter and my specific topic is phenomenology of decaying dark matter models.

It would be a pleasure for me to join your institute since it is an excellent place to work in the field of particle physics beyond the Standard Model. This position would give me the opportunity to develop and expand my research activities in neutrino physics, flavour physics and collider physics, while I could also stay in touch with the field of particle dark matter searches. In particular I would welcome to participate in the research activities of local group members.

Please find attached my CV, my list of publications and my statement of research interests. Three letters of recommendation will be submitted separately. Thank you very much for your consideration.

Yours sincerely,

Michael Greife
