I was pointed out by Prof. Stan J. Brodsky about this position and I would be very interested.

At the moment I am at the Max Planck Institute for Physics, Munich, Germany as invited researcher and I am looking for an available position starting in 2013.

I am currently working on regularization procedures in QCD in collaboration with Prof. Stan Brodsky at SLAC and on resummation and b-physics with Prof. Luca Trentadue at Parma University.

Here in attachment you can find my Cv with research interests, list of publications and an indicative proposal of the possible results which can be drawn in the short term(all in one pdf file).

Please contact me here for any eventuality.

Letters on my behalf will be sent by

Prof. Stanley J. Brodsky, Professor at SLAC, Stanford University, CA, USA
sjbth@slac.stanford.edu

Prof. Luca Trentadue, Professor at Parma University, Italy.

luca.trentadue@cern.ch ;

and Dr. Giulia Ricciardi, Researcher at Naples University, Italy.

giulia.ricciardi@na.infn.it ;

or Prof. Wolfgang Hollik, Director Max-Planck-Institut für Physik (Werner-Heisenberg-Institut), München, Germany.

hollik@mpp.mpg.de ;

thank you,
best regards,
