**RE: REQUEST FOR LETTER OF REFERENCE FOR S LATUNDE-DATA**

Dr Branco, Dr Rebelo,

Seyi has requested that I, as his line manager, provide this letter of reference for his application to your Post-Doctoral position in theoretical particle physics.

Seyi is recognised as one of the most technically gifted members of my team and is involved in scientific programming as well as assessing and developing scientific methods. He has shown enthusiasm for his work, and is always willing to assist others. He has an excellent attitude, as demonstrated by his schools volunteer work and his organisation of weekly colloquia.

Seyi has consistently shown a desire to publish and present his work, but unfortunately is unable to due to classification issues. He has written many internal reports and presentations. He is an excellent candidate for a post-doctoral position.

Regards

Dr L J Adams  
AWE
