Sorry for the spam. I have made a little mistake in the previous message, here is the correction. Sorry again.

Dear Prof. Gustavo C. Branco,

I am writing to apply for your postdoctoral positions at Lisbon University announced in the web site: <http://inspirehep.net>.

I am currently a Ph.D student at LAPTh (Laboratoire d'Annecy-le-Vieux de Physique Théorique), Annecy (France) and attached to the University of Grenoble (France), my thesis supervisor is Mr. Jean-Philippe Guillet. I expect to receive my doctorate in July or September 2013. My thesis work is about one-loop multi-leg calculations in gauge theories and applications to QCD processes for the LHC (GOLEM project).

You find attached my application letters including my cover letter, my curriculum vitae, a list of publications and statement of research interests in a single PDF file.

My references are:

- Dr. Jean-Philippe Guillet "guillet@lapp.in2p3.fr", LAPTh, Annecy (France)
- Dr. Patrick Aurenche "aurenche@lapp.in2p3.fr", LAPTh, Annecy (France)
- Prof. Bounames Abdelhafid "a.bounames@gmail.com", Jijel University, Jijel (Algeria)

Thank you very kindly for your consideration. I look forward to hearing from you.

Sincerely yours,  
Mohamed Sadek ZIDI
